

**SERVING UP CINEMA
WITH THIS COLLABORATION OF TRUE INDEPENDENT SPIRIT**

X

*We are proud to announce that John Robert's Botanic Request and **Bradford's** very own Drunken Film Fest are **SERVING UP CINEMA** with a true Celebration of **INDEPENDENT SPIRIT** this November!*

At the Botanic Request We believe that everyone has an element of exceptionalism inside of them and that people should embrace this quality, as it is this that makes them exceptional and not typical, and what better way to celebrate than with an exceptional spirit to match...because in our dictionary 'The Usual' is just another word for boring. And we here at DFFB couldn't agree more!

Within film making we see people from all backgrounds and all walks of life, from introverts to extroverts to people with a vision who have a story to tell. Film making is made via a collaborative ethos (Directors, Writers, Sound engineers, Runners, Boom operators: the list is endless)... and true to our brands beliefs; "When GREAT people come together EXCEPTIONAL THINGS HAPPEN!"

The Drunken Film Festival will span across numerous Independent venues in Bradford's City Centre throughout November, Celebrating and showcasing different select genres of films submitted by independent film makers from across the globe, offering FREE entry to all the screenings.
